

Declaration of Compliance

Date of issue	2022-11-08
Addressee	Igepa Belux NV
Document No	DoCMH22120
Product name	Invercote Creato
Product description	Fresh fibre solid bleached board on both print and reverse side coated with mineral coating (SBB).
Product specifications	Product specifications vary depending on the desired properties; for more information see Product Catalogue or Technical Specifications.
Manufacturer	Paperboard: Holmen Iggesund Paperboard AB, Iggesund Mill, SE-825 80 IGGESUND, Sweden
Intended use of the Product	Dry and fatty food. General packaging.

Material compliance with FCM national legislation in Europe

This product before conversion from a regulatory point of view is in compliance with the following relevant food contact material (FCM) legislation for dry and/or fatty food only:

- Regulation (EC) No 1935/2004 on materials and articles intended to come into contact with food;
- Commission Regulation (EC) No 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food. The manufacturing process of this product is in compliance with CEPI GMP guidelines.
- German Law: German Food and Feed Code section 5 § 30 and § 31, and BfR XXXVI recommendation on paper and board for food contact, as of 01.04.2022.
- French Law: Decree n° 2007-766, Decree n° 2008-1469, Decree n° 2012-1442, DGCCRF MCDA n°4 (V02-01/01/2019) "Suitability for food contact of organic materials based on vegetable fibers".
- Italian Law: Ministerial Decree D.M. 21/3/73, Presidential Decree D.P.R. 23/08/1982 n° 777, Ministerial Decree D.M. 26/04/1993 n° 220 (transposition of Council Directive 85/572/EC) and their amendments.
- Swiss Law: The Federal Law on Foodstuffs and Consumer Goods (817.0) - Ordinance on Foodstuffs and Utility Articles (SR 817.02) of 1 December 2020, Ordinance on Materials and Articles in Contact with Food (SR 817.023.21) of 1 December 2020.

From a regulatory point of view, this product is suitable for the intended use under the following conditions:

- Freezing and refrigeration;
- Storage, hot-fill and/or heating at temperatures up to 90 °C;

Based on our safety assessment, this product is also suitable for the intended use under the following conditions:

- Microwave oven for maximum 6 minutes at 900 W or equivalent/less severe conditions exposing the product to the same/lower amount of energy. In addition microwave oven can be used at higher power and/or longer time, as long as the temperature does not exceed 150 °C;
- Heating for at least 60 min up to 220 °C.

It is the responsibility of the converter to design the packaging in such way that during its usage aqueous food would not come into contact with the paperboard.

Non-food compliance

This product before conversion from a regulatory point of view is in compliance with:

- European Parliament and Council Directive 2009/48/EC and its subsequent amendments on the safety of toys. This product complies with all relevant restrictions laid down in this directive and fulfills requirements of standards Safety of toys - Part 3: Migration of certain elements (EN 71-3) and Safety of toys - Part 9: Organic chemical compounds - Requirements (EN 71-9);
- European Parliament and Council Directive 94/62/EC on packaging and packaging waste.
- Regulation (EC) 1907/2006 concerning the registration, evaluation, authorization and restriction of chemicals (REACH). Iggesund Paperboard will ensure that this product meets the requirements of REACH at such level that it does not contain either substances of very high concern (SVHC) in concentrations above 0.1 % as defined in REACH article 57 or certain dangerous substances listed in Annex XVII. In addition, Iggesund Paperboard is maintaining close contact with all its suppliers to ensure that chemicals purchased for use in the paperboard manufacturing process comply with the requirements of REACH.

Disclaimer

It is the responsibility of the customer to check the suitability of the converted product (e.g. printed, glued etc.) for the intended application and its compliance with the relevant legislation and applicable requirements including all relevant restrictions therein.

The information provided in this declaration is based on the declarations provided by our chemical suppliers and/or on the material analyses results obtained at internal or external laboratories. The information provided herein is accurate to our current knowledge.

This declaration is prepared and assured by Ieva Brink, Product Safety Manager at Iggesund Paperboard. It is valid for 2 (two) years or until either the customer requirements or the legislation have been significantly changed.
