

WASH-UV WUV258MRC

Galaxy Wash-UV WUV258MRC is a strong, fast drying metering roller wash for UV, HUV, LE-UV, LED, EB or Hybrid inks. WUV258MRC is designed to deep clean the metering rollers and optimise printing conditions.

Application: Suitable for manual application. WUV258MRC is designed for use with UV, HUV, LE-UV, LED, EB or Hybrid inks on metering rollers. It is completely water miscible, reduces ink receptivity and prolongs roller life. After washing with WUV258MRC please wash with water residues away.

Approval: WUV258MRC is corrosion inhibited, but has no official certification from press manufacturers.

Procedure to use: Moisten a clean cloth with pure WUV258MRC and clean rollers. When all ink is removed please make a final rinse with a clean cloth and pure water.

Product parameters:	Appearance	Transparent liquid
	Specific gravity	0.94 g/cm ³
	Flash point	37°C
	Class	All

Storage conditions: Store at room temperature conditions. Keep away from open fire and heat sources.

Shelf life: In unopened, original packaging, 12 months from manufacturing date

Packaging: 5ltr jerrycan (4 x 5ltr in a box), 20ltr jerrycan, 200ltr PVC Drum

Version: 01-2012

The information provided in this technical data sheet is to inform our customers. A successful application depends on a variety of different factors. Therefore the advice given in this technical data sheet cannot be used as basis for claims. Our recommendation is where possible to perform tests before entering production runs. We reserve the rights to change product characteristics because of technical progress, amendment of applicable law and mandatory production related needs.
