AbbeyScreen

Technical details

Material Calliper: Double wall (E): 1750 microns

Weight: 427g (+/- 5%)

Fluting: made from 100% waste based material and is 100% recyclable. Other heavier enhanced flutes are available as optional extra depending upon the performance requirements of the material. *(Note: As Fluting weights increase then so does the rigidity of the flute tips that can have an influence on the print & conversion results depending upon the process used).*

Material surface suited for Digital, Screen and offset litho inks

MOQ: 1000m²

Material is completely 100% recyclable as a unprinted grade

Other Flute profiles available in this grade: EB / EE / NE / B / F / N
