

### DESARDI® Eco Mural Smooth & Textured 280g instructions.

Eco Mural is a type of wallcovering that is very easy to apply and remove, making it an ideal product for temporary wallcovering solutions.

#### **Installation:**

**Step 1.** Spray water to the back of the sheet until thoroughly saturated.

**Step 2.** Gently fold the sheet with adhesive parts facing each other to keep moist and set aside for a few minutes to allow adhesive paste to activate.

**Step 3.** Unfold sheet and place onto a wall from top to bottom. Carefully smooth out bubbles and creases using a broad smoothing brush, not a squeegee, from the middle of the sheet out. If necessary, spray again with water around the edges during the entire process. Allow surface to dry to the touch and wipe off any excess adhesive using a damp cloth or sponge.

**Step 4.** Wait for mural to dry completely and trim if necessary using a straight knife with a fresh blade tip.

#### **Removal:**

**Step 1.** Spray the surface with water to allow paste-adhesive to relax for easier removal.

**Step 2.** Start from top to bottom, drawing the product back on itself at a 180° degree angle. Spray with more water if necessary.

**Step 3.** Use a wet cloth to remove any remaining adhesive from the surface.
