

PRISCO® ROLLER LUBE

Product Description:

PRISCO® Roller Lube reduces friction and helps prevent overheating, swelling, cracking and sticking, by lubricating dry rollers being run without ink. **Prisco Roller Lube** should also be used to prevent stored rollers from drying out and cracking, or to protect the rollers in the press in preparation of a longer standstill. This product is also referred to as a “dry unit compound”.

Advantages:

- No VOC's - Easy to use
- Reduces Friction
- Helps prevent overheating, swelling and cracking
- Prevents stored rollers from drying out and cracking
- Protects the rollers in the press during a longer standstill
- Safe to use on EPDM rollers

Directions:

- For long runs without ink, put **Prisco Roller Lube** in the ink fountain. Adjust blade for minimum flow.
- For short runs without ink or long standstill of the press, apply **Prisco Roller Lube** to top ink roller, using enough to cover all rollers in ink train.
- To clean rollers at the end of the run or before restart of production, wash rollers with Prisco Roller Wash, as you would with ink.
